

THIS IS AN AUDIO COMPACT CASSETTE

Common identifiers for compact cassette

- ❑ **Cassette logo**
 - Usually there is a compact cassette logo somewhere on the cassette
- ❑ **Compact Cassette:**
 - Dimensions: 4" x 2.5" x 1/2"
 - Typically made of plastic
 - Tape width is 1/8"
- ❑ Each tape holds between 30 to 120 minutes of audio content
- ❑ Most commercial tapes have a four-track stereo configuration: tracks 1 and 2 on "Side A" and tracks 3 and 4 on "Side B"
- ❑ Most commercial tapes have a playback speed of 1 7/8 IPS but it can vary (especially mixtapes!)
- ❑ **Common Brands:**
 - TDK
 - Maxell
 - Dolby
- ★ **Caution: It is really easy to accidentally record over the compact cassette. Try avoiding the RECORD BUTTON.**
