There is a very excellent genealogy of the Carpenter family published by General Louis Henry Carpenter. It is called "Samuel Carpenter and his Descendants". The Tonkins line appears in it when one Thomas Carpenter of NJ married one Mary Tonkin and have a whole book full of descendants. This family began with children born 1775. We believe this Mary Tonkins or Tonkin was of the same group as appears in NJ records as Tompkins. It looks like either the name in England was Tonkin (Tonkins) and at Burlington NJ it became Tompkins, or vice versa. We do find a Thomas Tonkin of Cornwall in England (where our own branch lived) but the English records call him Tonkins, will prov 1652, the executor of will was his son Edmund Tonkin, who had a son Thomas Tomkins of Rahway England who appears to have gone to Waterbury and bought land there in 1664. He had a son Edward Tomkins who bought land at Burlington NJ and had a son John of Burlington NJ who appears in NJ records as John Tomkins and also as John Tonkins, but had wife and children exactly of same names and ages as listed as John Tomkins. We pursued this line down but it disappears but the Carpenter book has them all but spell it Tonkin. We list the first generation and the descendants of these will be found in the Carpenter book. But we believe the original Connecticut family had some descendants who continued with the Tomkins form but the branch that married into these Carpenter lines, recorded their name form as Tonkin.

-----Mary Tonkin m. Thomas Carpenter (see Carpenter book)

had of NJ

1. Samuel Carpenter b. Jan 6 1775 d. Apr 16 1792
2. Edward Carpenter b. Jun 4 1777 d. Mar 13 1813 m. 1799 Sarah Stratton

The descendants of these married into the Washburn and several other families who were intermarried with the Tompkins branches.
