

## Neighborhood Science Checklist

- ☐ Install the iNaturalist app or access the iNaturalist website and create an account to login
- ☐ Test fit your smartphone with the kit's telephoto lens, macro lens, tripod, and binocular mount
- ☐ Twist the focus adjustment knobs on the binoculars and on the telephoto lens to ensure your image is in focus
- ☐ Preview the *Birds of Southern California Guide* and the NeiSci Data Card for the identification of species and the recording of observation time and location
- ☐ Test the digital GPS device for the noting of latitude and longitude
- ☐ Head outside and begin your ecosystem observations
- ☐ Record observations of both plant and animal species
- ☐ Return to your group and share your recorded observations
